001. CHAMOIS CREAM

Quite simply, VeloSkin's chamois cream is our 'hero' product. Why? We are confident that it is the best out there for protecting that part of your body that is so vital for sustained, enjoyable riding.

Rather than harsh preservatives, horrible chemicals and non-absorbent petroleum jelly, VeloSkin's patented formula is packed with vitamins, minerals and amino acids, as well natural ingredients to soothe, smooth and keep harmful bacteria at bay. We also use calming shea and cocoa butters to absorb quickly without leaving a sticky residue.

- Plant based using 13 natural ingredients
- Long lasting anti friction prevention
- No Harsh chemicals, alcohol or parabens
- Anti bacterial & anti inflammatory formula
- Packed with vitamins, minerals & amino acids
- Tested on cyclists, not bunnies

I've tried many different chamois creams and I've found VeloSkin to be the best out there.

002. SOOTHING GEL

The unique formula contained in VeloSkin's soothing gel works to soothe and cool soreness and skin damage caused by saddle friction. Natural ingredients combine to offer anti-bacterial and anti-inflammatory properties to speed up the healing process and provide blessed relief in the interim.

Specially formulated for cyclists - and tested after long century rides and fast action races - VeloSkin's soothing gel contains no stinging alcohol or harsh additives. Just a blend of natural vitamins, minerals and oils that work together to get you back in the saddle quicker than ever.

- Plant based formulation
- Performance soothing gel to help skin recovery quickly
- Packed with vitamins, minerals and amino acids to aid recovery
- Apply to the saddle area - the cooling gel brings blood to the surface of the skin to speed up the recovery process
- No harsh chemicals, alcohol or parabens

Fantastic, the only product I trust for a long ride.

003. SHAVE CREAM

VeloSkin's shave cream is a unique formulation tailored to those who kick off each race season with super smooth skin. Cutting-edge molecular technology contained within each tube inhibits hair regrowth, meaning you can go longer between putting down the razor and picking it back up again.

Working up into a rich and creamy lather, VeloSkin's shave cream is easily identifiable by our house scent - a refreshing blend of orange blossom and bergamot evoking the hill climbs of sunny Mallorca.

Best product I've used and I've tried a few.

005. MOISTURISER

Whatever the world throws at you, your skin has to take it all. Time to offer it gentle protection and support with Veloskin's re-hydrating moisturiser. Daily use recharges tired skin and helps provide a natural layer of protection against the sun's harmful UVA and UVB rays.

A blend of natural ingredients gets to work to immediately tackle dry and tight skin, leaving your face supple, smooth and looking healthy. Our unique non-greasy formula goes on easily, and leaves no sticky residue or film on the skin.

- Plant based formulation
- Naturally scented
- Matt non greasy formulation
- Helps prevent sweating during riding
- Deeply hydrating

Genuinely the best products I have ever used

“ I made contact with Veloskin in the winter and at the time, I’m ashamed to say, I had very hairy legs. I got on my bike a bit more after getting hold of some of the products and then the warm weather came along. It was leg shaving time. Shaving felt good and the soothing gel did exactly that. It made my legs feel great. I just did a trip to Mallorca too and did more rides back to back than I have done for a while. The gel and chomois cream worked a treat! ”

“ Over the years I’ve tried many different skincare products from the big brands in cycling with varying results. Having used solely Veloskin for the last year, I have noticed a big reduction in saddle soreness and better quality skin in general. Comfort on the bike is so important so I would definitely recommend investing in these products. ”
